MEMORANDUM FOR: Chief of Operations, PTAS

FROM:

[Redacted]

Chief, Physical Security Division

STAT

SUBJECT: Office of Security Government Vehicle Survey

REFERENCE: Memo from C/PPG, dated 3 August 1981, same  
Subject

1. In accordance with the guidance provided in reference, the Physical Security Division (PSD) has reviewed its current complement of official vehicles. It is our conclusion that there is a continuing "absolute need" for the vehicles assigned to this Division. It is noted, however, that some vehicles carried on the earlier sheet listings as belonging to PSD have been either re-assigned to other components or turned in.

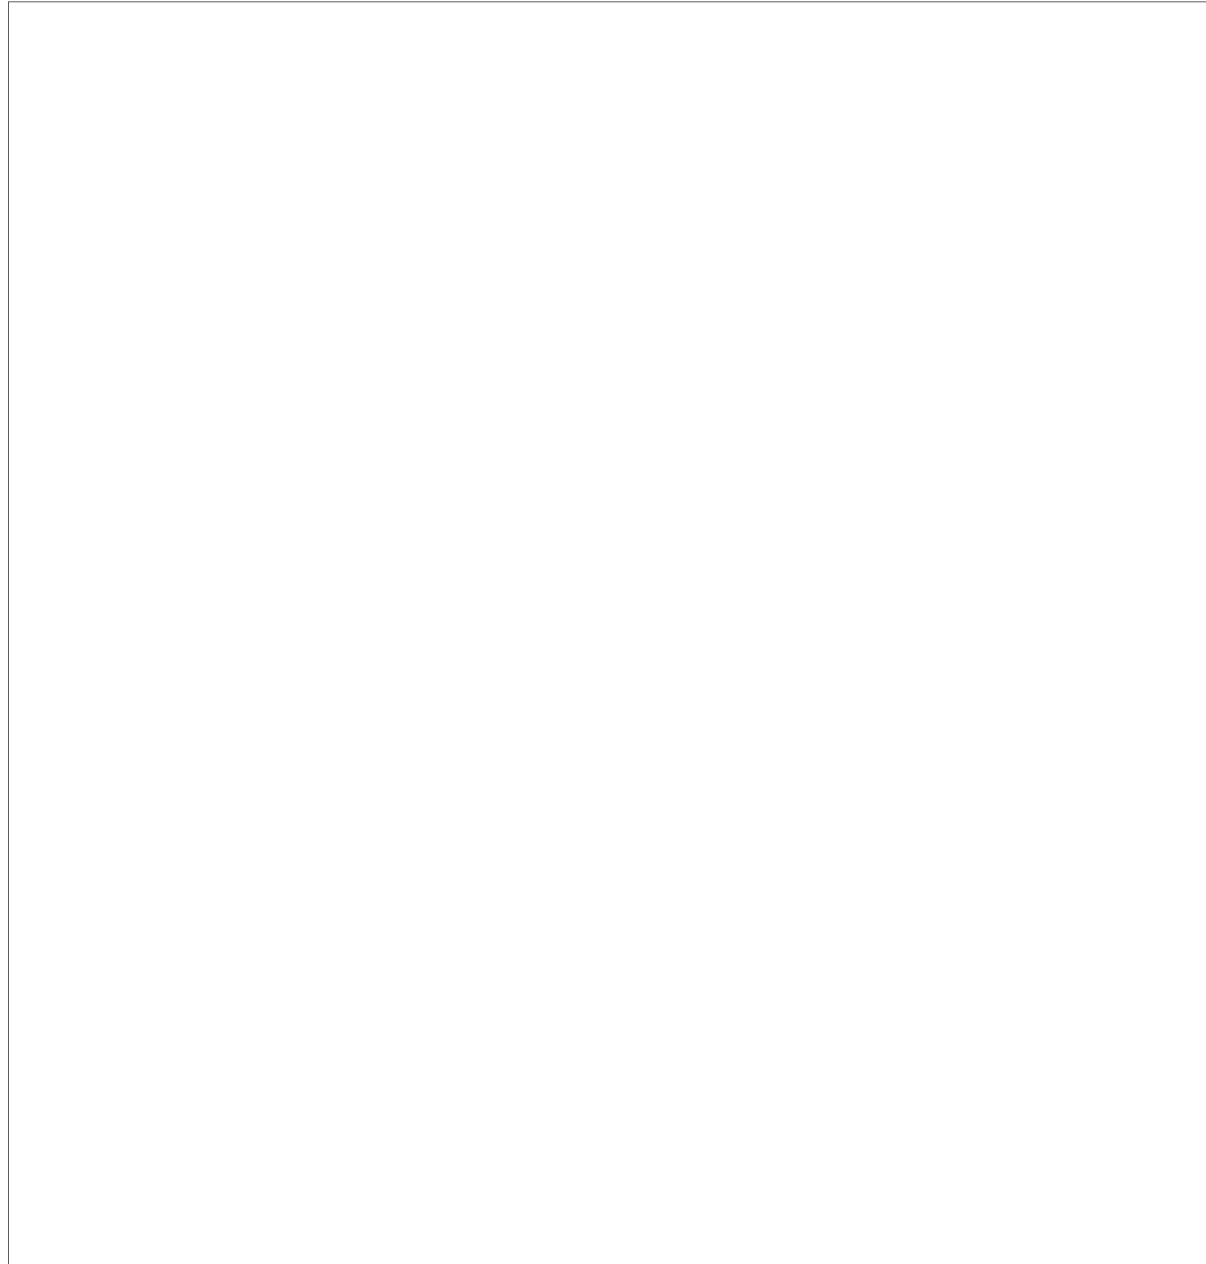

2. Following is a listing of current PSD vehicles with the requested updated information and justification.

[Large empty rectangular box for listing of current PSD vehicles]

3. It should be noted that between March and July 1981 the Physical Security Division has turned in from its vehicle inventory three units; a 1974 Chevrolet sedan, a 1975 Plymouth, and a 1967 International. Also having taken possession of a new vehicle to be assigned to the Director of Security, it may be anticipated that vehicles under our management will be reallocated with a resulting availability for turn in of one vehicle. That vehicle has not yet been identified.
